Presents

A Five Days Online FDP on

MACHINE LEARNING AND DEEP LEARNING: RECENT TRENDS AND APPLICATIONS

on 1-5 May, 2023

ABOUT FDP:

Department of Computer Science and Engineering is organizing an online Faculty Development Programme (FDP) during 1st to 5th May 2023. This FDP seeks to highlight recent deep learning (DL) and machine learning (ML) trends and applications. For scholars interested in the fields of machine learning and deep learning, these sessions would offer a perfect forum for knowledge updates and assistance in solving real-world problems. Additionally, this FDP will enable practical Python sessions. After completing the program, participants will be versed in challenges related to machine learning and deep learning in the real world.

ABOUT OPJU:

OP Jindal University (OPJU) has been established under the aegis of the Jindal Education and Welfare Society. The O P Jindal Group is a US\$ 22 billion conglomerate, employing more than 50,000 people with manufacturing facilities across India, the US, UK, Australia, Indonesia, South Africa, Chile & Mozambique. OPJU is a multidisciplinary university aimed at developing young professionals and future leaders who will not only power the growth and development of the nation but also become responsible citizens of the world. At the core of the university's philosophy and approach lies the belief that students learn best when exposed to real-world situations and when nurtured through enriching interactions with practitioners and professors.
